

akCanConnect

The akCanConnect program ensures that low-income individuals with a combined hearing and vision loss can access telephone, advanced communications and information service because...

Communication is Essential to Life!

How does the program work?

The akCanConnect program provides telecommunication equipment free of charge to qualified recipients. It includes equipment installation, training, and support to help make the most of the technology provided. There is a wide range of hardware, software, and applications available to suit the varying distance communication needs of qualified Alaskans. A program specialist will contact you after receiving your application to help you identify equipment that will meet your needs.
